

ABSTRACT

An IC card issuer issues an IC card and requests a
card memory area operator to lend part of a memory area
5 of the IC card to another card memory area user. The card
memory area operator provides a memory area division
apparatus and various data to the memory area division
apparatus under the control of an operator communication
apparatus 12. The card memory area user divides the
10 memory area of the IC card to a memory area to be used by
the IC card issuer and a memory area to be used by the
card memory area user. The operation file registration
apparatus writes file data for the card memory area user
providing a service to the memory area of the card memory
15 area user obtained by the above division.
